The Scope

Winter 2017

President's Message

Season's Greetings everyone!

It has been a crazy holiday season and seems like it has flown by faster than ever. Life is so fast that we sometimes need to remind ourselves to slow down and appreciate all that we have, our family, health and privileges. I hope everyone enjoys their time off and rests up to kick 2018 off!

Here at the OSGNA the board is gearing down and preparing to close out the 2017 year. We are busy re-chartering our region so that we can continue to provide our annual educational conference for our area GI nurses and associated. Become an SGNA member at sgna.org to get discounts on the OSGNA educational conference, the SGNA marketplace educational resources and the Annual Course. We would also like to remind existing SGNA members that it is time to renew your yearly SGNA membership.

Really cold weather is about to be upon us so let this be a time to think about registering for the Annual Course within the Disney resort in May of 2018 in Orlando Florida. Registration is now open! Save a spot in your favorite optional courses before they are full.

We look forward to seeing our region at our educational conference that will be early this year on February 24, 2018. We are working on opening registration for this

Upcoming Dates

Feb 24th: OSGNA Spring Education Offering
May 18th-19th: SGNA National Pre Meeting
May 20th-22nd: SGNA Annual Course in Orlando, FL

event as early as possible in 2018 but please mark your calendar to join us in Columbus, Ohio on that day. We will have a day full of GI professionals providing the one of the best educational opportunities in our region for GI enthusiast.

Stay warm and safe and enjoy the remaining holiday season. Merry Christmas and Happy New year from the OSGNA!
