

November 2022

President’s Message

Dear OSGNA Members,

I hope everyone is enjoying this cold weather!

The OSGNA board has created a Survey Monkey for our 2022 elections. Please make your elections in the next week as the poll will close on 11/25.

<https://www.surveymonkey.com/r/TW5K6WG>

It’s that time of year again to start planning our next Spring Conference. We are planning to host the conference on March 11th, 2023 at The Summit Hotel in Cincinnati. More info to come. If you have any suggestions for topics or speakers please let us know.

November is Gastric Cancer Awareness Month. Gastric cancer is the fifth most common cancer in the United States. It is the second most common cause of cancer deaths globally. Up to 10 % of cases are a familial in origin. Stomach cancer is typically diagnosed in late stages and hard to detect. Diagnosing and treating H.Pylori infections can decrease the risk of developing Gastric cancer. For information or to donate to the cause visit, <https://nostomachforcancer.org/> or <https://www.aacr.org/>

Best Regards,
Lauren Meadors, DNP, CGRN
OSGNA President
