Judy Staley, RN, BSN, former nurse manager “built” the Endoscopy unit at Bethesda North from the ground up. She started by assisting with a few Endoscopy procedures while on other nursing units, then opened an Endoscopy department within the hospital. Staley was on the first team to perform an ERCP at Bethesda North. Today the department is the busiest in a four county area.

Judy Passed away on Oct. 9, 2008, but leaves this unit as her proud legacy. Her career was also highlighted by her passion for learning and her encouragement of everyone around her to advance themselves, both personally and professionally. This symposium is presented in honor of Judy’s dedication to the G.I. profession.
